REMARKS

By this Amendment, Applicants have amended claim 7.  
Claims 1-9 are pending in the application.

The Examiner objected to the drawings noting the absence of descriptive labels for all elements of Figures 1 and 2. A replacement sheet has been submitted herewith in which descriptive labels have been added to the block diagrams of Figures 1 and 2. These labels correspond with the identification of the noted elements as set forth in the specification. No new matter has been added.

The Examiner objected to claims 7-9 as containing an informality but stated that claims 7-9 would be allowable if amended to overcome the rejection. Claims 1-6 are allowed.

By this Amendment, Applicants have amended claim 7 to remove the informality without changing the scope of the claim. The amendment is therefore proper after receipt of a Quayle action.

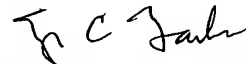

With this amendment and the foregoing remarks, it is respectfully submitted that the present application is in condition for allowance.
